

WASTE MANAGEMENT AND RECYCLING POLICY STATEMENT

This is the Waste Management and Recycling Policy Statement of DCS Universal Building Contractors Ltd. The policy reflects the company's commitment to waste management as part of our environmental policy and procedures.

Our Objectives

To protect the environment and reduce waste levels, we have adopted the following objectives:

- Promote and cultivate a work ethic with a high level of awareness of waste management.
- Identify and minimise waste, recycle and reuse materials when practical.
- Comply with current waste legislation and where appropriate act in anticipation of future requirements.
- Promote economy in the use of materials generally and paper in particular in our offices.
- Carry out checks on all waste or surplus arisings and assess whether they can be reused, recycled, or require correct facility disposal.
- Encourage the use of materials resourced from sustainable, renewable, or recycled means where possible.
- Favor subcontractors and suppliers who actively operate according to sound environmental principles.

Our Policy

To achieve our objectives, we are committed to:

- Minimise waste levels, waste nuisance, pollutants, and disturbance to the public
- Prevent pollution and minimise the production of waste, through good purchasing practice of materials used throughout the business, reuse and recycle materials where technically and economically viable
- Ensure that all wastes are transported and disposed of in an environmentally acceptable manner, in accordance with statutory duty of care requirements.
- Provide the necessary awareness and training to enable staff at all levels to understand and contribute to the implementation of this policy.
